History Timeline

Solution

The bicycle

In 1817, German baron Karl Drais invented the «draisine»: two wooden wheels, no pedals, propelled by the feet. The ancestor of the modern bicycle!

1

1817

The ballpoint pen

In 1938, Hungarian inventor László Bíró patented the ballpoint pen. Tired of ink smudges from fountain pens, he invented a rotating ball tip that revolutionized everyday writing.

5

1938

The barcode

On June 26, 1974, a pack of Wrigley's chewing gum became the first product scanned at a checkout in a supermarket. An invention that today equips billions of products worldwide.

3

1974

1936

2

Sunscreen

In 1936, Austrian chemist Franz Greiter returned from a hike with a terrible sunburn. He then set out to develop the world's first sunscreen.

1961

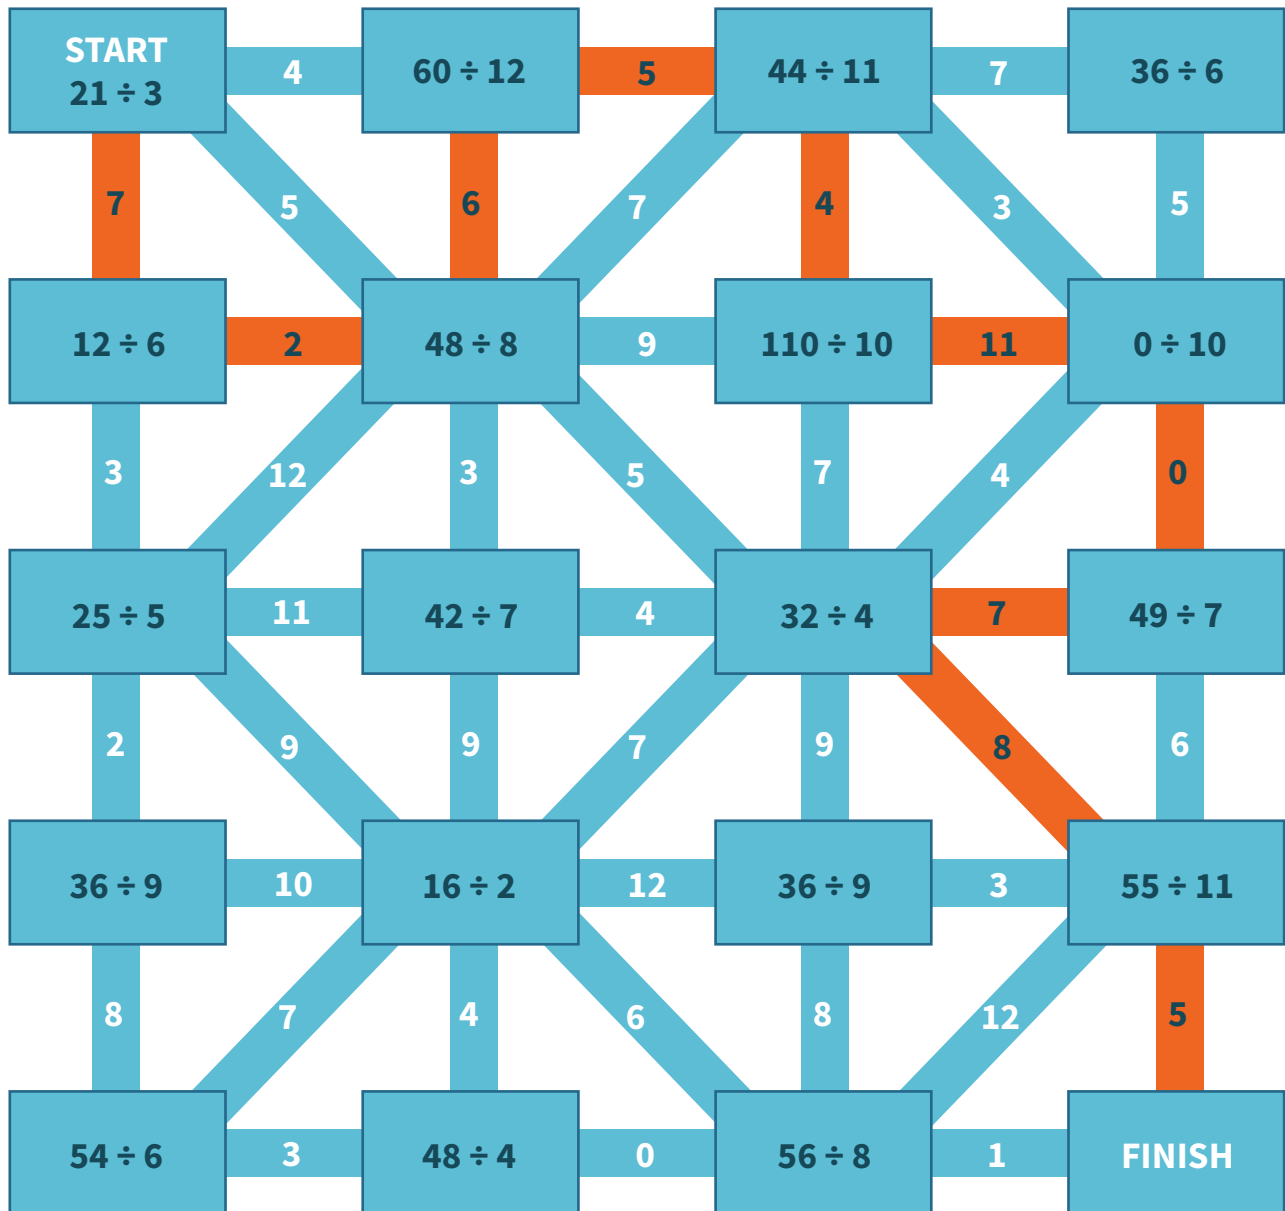

4

The first man in space

On April 12, 1961, Soviet cosmonaut Yuri Gagarin became the first man to leave Earth. He completed a full orbit of our planet in just 108 minutes.
