Flowery Path

Find the exit by passing through all the roses!

The maze is a complex path of white lines on a green background with a leaf pattern. It starts at an 'Entrance' on the top right and ends at an 'Exit' on the bottom left. There are five red roses placed at various points within the maze: one in the top left, one in the middle right, one in the center, one in the bottom right, and one in the bottom center.

Lost Itinerary

Using the clues, find out each cyclist's bike type, the number of kilometres ridden, their arrival city and their break. Write your answers in the table below.

Harry, Susan, Bernard and **Martha** set off from London for a great cycling adventure. They take 4 different routes of 60, 120, 180 and 240 km to reach Oxford, Brighton, Cambridge or Bath.

One of the cyclists with an electric bike covers the longest distance.

- **Harry** is very attached to his old road bike, which he has looked after for 20 years. He is expected in Oxford for a group ride.
- **Susan** plans to have a picnic with friends halfway and recharge her electric bike for the last 90 km.
- **Bernard** prefers country lanes and stops at a bakery in Brighton to stock up, once he reaches his destination.
- **Martha** only stopped once, at the fast charging point on the cycle path.

One of the cyclists did not need to stop for supplies, as their route was short enough.
